In re: INTERFERENCE COMPLAINT
K234BS, Las Vegas, NV
Facility ID No. 156220
BLFT-20091001ABH

Dear Licensee:

This letter refers to an interference complaint filed by a listener of station KXLI(FM). A copy of the interference complaint is attached. The complaint alleges that K234BS is interfering with the reception of KXLI(FM), Moapa, Nevada.

Pursuant to 47 C.F.R. § 74.1203, K234BS is required to eliminate any actual interference it causes. Therefore, it is necessary for K234BS to submit a detailed report on the attached complaint and any other complaints the station may have received since commencing operation. For each complaint, the report must include: (1) the name and address of the complainant; (2) specific devices receiving the interference (i.e. type of device, manufacturer's name, model number, and serial number); and (3) any assistance provided by K234BS for each device allegedly receiving the interference and whether such interference persists. Each of the complaints must be addressed individually.

The Commission's Rules regarding FM translators restrict FM translator stations to operate strictly on a secondary basis and limit their service. Section 74.1203(a)(3) states that an FM translator station will not be permitted to continue to operate if it causes any actual radio signal interference to the direct reception by the public of the off-the-air signals of any authorized broadcast station.¹ Actual interference is based on listener complaints indicating that the signal they regularly receive is being impaired by the signal radiated by the FM translator station. Section 74.1203(b) states that if the interference cannot be properly eliminated by the application of suitable techniques, the operation of the offending FM translator station shall be suspended and shall not be resumed until the interference has been eliminated.

¹ An FM translator station creating actual radio signal interference to any authorized broadcast station is obligated to eliminate the interference, regardless of the location where the impaired signal reception occurs.

Within thirty days of this letter, K234BS must take appropriate actions required by the provisions of 47 C.F.R. § 74.1203 to resolve all complaints of interference to fulfill its obligations. Further action on this complaint will be withheld for a period of thirty days from the date of this letter to provide K234BS an opportunity to respond. Failure to correct all complaints within this time may require K234BS to suspend operation pursuant to 47 C.F.R. §§ 74.1203(e) and 74.1232(h).

I, Francisco Esparza, long-term resident at

4308 Sun Rise Ave 24, No. 89110 hereby declare as follows under penalty of perjury:

1. I am a regular listener of Station EXA 94.5 FM KXLI I have listened to the Station since 09-13-12 I have no relationship with Eric Palacios or the licensee of the Station or the Station itself, other than as a regular listener. Recently, I have noted that the station next to 94.5 what appears to be an FM station operating on 94.7 also in Spanish, and sometimes overlaps on 94.5FM. I can tell because their programming is different from the programming on EXA 94.5 FM KXLI. This interference makes it very difficult to hear KXLI on any consistent basis.
2. The above is true and correct to the best of my knowledge and belief.

Name: Francisco Esparza

Date: 08-27-13
