Re: BLDTL-20100108ABD, WAZW-LD, Channel 46, Winchester, CA, Facility ID 168449

Dear Hossein:

WMTM, LLC recently became the licensee of WAZW-LD and have come to realize that the antenna in use at the site has a difference model number from the antenna specified in the license.

The antenna model specified in the license is ALP12L2-HSW and the antenna model in use at the site is PSILP12AW, which is a standard pattern in the FCC database (see Antenna ID 20358). Nonetheless, both antennas have the same gain, size and horizontal and vertical patterns. Therefore, the coverage area is identical to that of the authorized facility.

WMTM, LLC hereby respectfully requests the Commission to change the antenna model in BLDTL-20100108ABD to PSILP12AW.

Respectfully submitted,
