File No. BNPL-20131023ALE

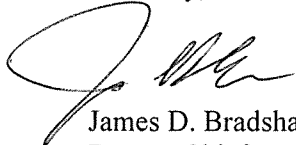

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

According to the Commission's rules (the "Rules"), a LPFM station will only be licensed to a nonprofit educational organization that qualifies as local. Section 73.853 of the Rules requires a LPFM applicant applying as a non-commercial educational organization in a top 50 urban market to be physically headquartered within 10 miles of the proposed transmitter site, and to have 75% of its board members residing within 10 miles of the proposed site.¹ Our review of the application reveals that the transmitter site is in the Orlando Arbitron radio market and that the organization is located 12 miles from that site. In addition, all four board members are located 12 miles from the transmitter site.² The application does not address this defect. Therefore, the application will be dismissed.

Accordingly, application BNPL-20131023ALE is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED.³ This action is taken pursuant to 47 C.F.R. § 0.283

Sincerely,

James D. Bradshaw

³ Under the Public Notice entitled "Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications," FCC 84-366, released August 2, 1984, the Commission indicated that it would reinstate applications *nunc pro tunc* where the original application was dismissed and where a minor curative amendment was filed within thirty days. Please note that any amendment submitted for this purpose must be received within 30 days of the Public Notice of the dismissal of the application and must correct ALL acceptance defects with the application. This includes any defects that may not have been identified in the dismissal letter.
