Mr. Meulman:

The station license had been cancelled per your letter dated June 16, 2014 and received June 23, 2014.

But in light of your current request (below), I have undone the cancellation in our CDBS database system and reinstated the license, the granted STA, and the license renewal application. The call sign "KSFH" has also been restored. These changes should appear tomorrow, June 27, 2014.

Please print a copy of this e-mail and keep it with the station records. A copy should be placed in the station's public inspection file as well.

Mr. Bickel

My name is Todd Meulman and I am from Saint Francis High School in Mountain View, California.

Our radio station is (was?) KSFH.
Our Facility ID# is 62118
and our STA code is BSTA-20140513AAU

I emailed you a while back for help on canceling the station. You were so kind to help and I did as you advised and sent a letter.

HOWEVER, I just found out that I was misinformed and we DO NOT want to cancel the station. Since I did not have a name for a contact with the letter, I do not know who to call to try and fix this situation.

Is there any hope of fixing this situation? Can you give me any help/ advise on how I might go about fixing this situation?

Thank you for any help you might provide.

Take care.

Todd
