Re: Clear Channel Broadcasting Licenses, Inc. (CCBL)  
WIOD(AM), Miami, Florida  
Facility Identification Number: 14242  
Special Temporary Authority (STA)  
BESTA-20140702ABK

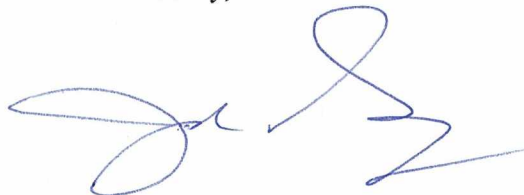

Dear Mr. Langham:

This is in reference to the request filed on July 7, 2014. CCBL requests further extension of the STA originally granted on June 16, 1981, for operation with increased power of 10 kilowatts (day and night) to overcome Cuban interference.<sup>1</sup> In support of the request, CCBL states the STA is needed to overcome the continuing effects of Cuban interference.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WIOD may continue to operate with increased power of 10 kW using the directional antenna specifications given in BZ-20040227ACD.<sup>2</sup> It will be necessary to further reduce power or cease operation if complaints of interference are received. CCBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commissions exposure guidelines. See 47 CFR § 1.1310. Station WIOD must resume licensed operating parameters (per BZ-19901121AE) if the Cuban interference ceases.

This authority expires on **January 25, 2015**.

Sincerely,

A handwritten signature in blue ink, appearing to be 'J. Szczesny', with a stylized flourish at the end.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau

cc: Robert H. Walls, GC, CCBL

---

<sup>1</sup> WIOD is licensed for DA operation on 610 kHz with 5 kW (day and night).

<sup>2</sup> BZ-20040227ACD was granted on May 24, 2004, for modification of the DA specifications employed for the STA, and the STA was modified by Commission letter dated May 24, 2004, to specify operation with the revised DA specifications (modification incorporated into authorization issued herein).
