Dear Applicant:

Your previous minor change application BPDTL-20140527AAH was subsequently dismissed on July 17, 2014, for the following reason:

Specifically, the protected contour of the above referenced proposed digital facility does not overlap with the protected contour of the existing digital license application license file number BLDTL-20140304ADM.

Our records show that no amendment has been filed as of July 16, 2014, to resolve the above deficiency issue.

On July 21, 2014, you filed a minor change application as reference above; however, our review of that proposal shows the same deficiency as addressed in the previously dismissed application as outlined above and in addition, you failed to answer question 13. Interference and question 14. Environmental Protection Act under the certification section of the FCC 346 application; therefore, the above referenced application is hereby dismissed.

Sincerely

Hossein Hashemzadeh
