| <input type="radio"/> Digital Flash Cut | <input type="radio"/> Digital LPTV Companion Channel | | | | | | | |

NOTE: In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.

Section II - Legal

| | | |
|--|--|--|
| 1. | Certification. Licensee certifies that it has answered each question in this application based on its review of the application instructions and worksheets. Licensee further certifies that where it has made an affirmative certification below, this certification constitutes its representation that the application satisfies each of the pertinent standards and criteria set forth in the application instructions and worksheets. | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| 2. | Continued Eligibility. License certifies that its station does, and will continue to broadcast: (a) a minimum of 18 hours per day; and (b) an average of at least 3 hours per week of programming each quarter produced within the market area served by the station, or the market area served by a group of commonly controlled low-power or Class A stations that carry common local programming produced within the market area served by such groups. | <input type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 2] |
| 3. | Local Public Notice. (For major change Applicants Only) Applicant certifies that it will comply with the public notice requirements of 47 C.F.R. Section 73.3580. | <input type="radio"/> Yes <input type="radio"/> No |
| 4. | Rebroadcast Certification. (For Applicants proposing translator rebroadcasts that are not the licensee of the primary station) Applicant certifies that written authority has been obtained from the licensee of the station whose programs are to be retransmitted. | <input type="radio"/> Yes <input type="radio"/> No |
| 5. | Auction Authorization. If the application is being submitted to obtain a construction permit for which the applicant was the winning bidder in an auction, then the applicant certifies, pursuant to 47 C.F.R. Section 73.5005(a), that it has attached an exhibit containing the information required by 47 C.F.R. Sections 1.2107(d), 1.2110(i), 1.2112(a) and 1.2112(b), if applicable. An exhibit is required unless this question is inapplicable. | <input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A [Exhibit 3] |
| 6. | Anti-Drug Abuse Act Certification. Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862. | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.) | | |

[Relative Field Polar Plot](#)

CERTIFICATION

| | |
|--|---|
| <p>11. Interference : The proposed facility complies with all of the following applicable rule sections. 47.C.F.R Sections 73.6011, 73.6012, 73.6013, 73.6014, 73.6020, 73.1030 and 74.709.</p> | <input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 6] |
| <p>12. Environmental Protection Act. The proposed facility is excluded from environmental processing under 47. C.F.R. Section 1.1306 (i.e., the facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine RF compliance, an Exhibit is required.</p> <p>By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.</p> | <input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 7] |

SECTION III PREPARER'S CERTIFICATION

I certify that I have prepared Section III (Engineering Data) on behalf of the applicant, and that after such preparation, I have examined and found it to be accurate and true to the best of my knowledge and belief.

| Description |
|---------------------------|
| EXHIBIT 7 |

Engineering Statement and Interference Analysis

This application proposes a minor change to the licensed facility of Class A television station WAZH-CA, Channel 24, Harrisonburg, VA, Facility ID 57908, FCC File No. BLTT20000706AEU.

The proposed facility on channel 24 was studied using the Techware's tv_process_2010 software on a Sun Blade 1500 using the post transition data and the 2010 US Census. The Applicant requests that the Commission processes this instant application using the following standard Longley-Rice analysis settings:

- Cell Size for Service Analysis is 1.0 km/side
- Distance Increments for Longley-Rice Analysis is 1.00 km

This Application is minor in nature and can be granted immediately because the contours are not being extended in any direction. There is no change in the output channel, the proposed transmitter location is within 30 miles of the reference coordinates of the existing station's antenna location, and the proposed F(50,50) 74 dBu contour is fully contained within the licensed F(50,50) 74 dBu contour.

It is believed that the proposed facility complies with the requirements of 47.C.F.R Sections 73.6011, 73.6012, 73.6013, 73.6014, 73.6020, 73.1030, 74.709, and other applicable parts of the Rules and Regulations of the Federal Communications Commission. However, to the degree that it is deemed necessary, the Applicant requests a waiver of these other applicable Commission rules in order to allow for the grant of this instant application.

National Radio Quiet Zone

The proposed facility is outside of the National Radio Quiet Zone and therefore coordination and approval from the NRQZ is not required.

Digital TV Station Protection

The proposed operation causes less than 0.5% interference to surrounding digital assignments and allotments and facilities (i.e., "*de minimis*"). It is believed that the proposed operation is in compliance with the spirit and intent of the FCC's interference standards.

Class A, Low Power TV and TV Translator Station Protection

The proposed facility causes less than 0.5% interference to surrounding low power and Class A authorized facilities (i.e., "*de minimis*"). It is believed that the proposed operation is in compliance with the spirit and intent of the FCC's interference standards.
