Re: WGD(AM), Lares, Puerto Rico  
Facility Identification Number: 36564  
Lares Broadcasting Corporation (LBC)  
Special Temporary Authority (STA)  
BESTA-20140710ACI

Dear Mr. Cinnamon:

This is in reference to the request filed on July 10, 2014. LBC requests an extension of the STA to operate WGD(AM) with the same STA facilities originally granted on November 22, 1991, using the 1 kW ND pattern specified in BP-19900326AD. In support of the request, LBC states that BP-19900326AD remains pending before the Commission.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly the request for STA IS HEREBY GRANTED. Station WGD(AM) may operate with the parameters specified in BP-19900326AD. This authority is granted on the condition that, if the IFRB orders HIBS to return to 1200 kHz, BP-19900326AD will be dismissed, this STA will be immediately cancelled, and WGD(AM) must immediately return to licensed operating parameters specified in BL-19860606AG.

This authority expires on **February 6, 2015**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division, Media Bureau
