Re: KJHM (FM), Denver, CO
Max Radio of Denver, LLC
Facility Identification Number: 38629
Special Temporary Authority (STA)
BESTA-20140807AAI

Dear Counsel:

This is in reference to the request filed August 7, 2014, on behalf of Max Radio of Denver, LLC ("Max Radio"), seeking an extension of the STA granted May 7, 2014. Max Radio explains that a replacement antenna is expected in August with installation afterward. Because the antenna system is mounted on a very tall tower, it is not easily repaired. Max Radio proposes continued reduced power operation, and also to maintain limited operation directly through its licensed booster facility, KJHM-FM1 (Facility ID No. 162588) during the periods when the main KJHM facility is silent.

The Special Temporary Authority extension IS GRANTED to permit KJHM to continue reduced power operation, or to go silent, as needed, and to transmit directly via FM booster station KJHM-FM1, pending repairs to the licensed main antenna system. Max Radio must advise the Commission when licensed operations resume. Max Radio must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 13, 2014**.

Sincerely,

Dale Bickel
Senior Engineer
