Re: WTKL (FM), Kenner, Louisiana
Facility Identification Number: 52435
Entercom New Orleans License, LLC
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed February 13, 2006, on behalf of Entercom New Orleans License, LLC ("Entercom"). Entercom requests modification of the special temporary authority ("STA") granted on October 28, 2005, to operate Station WTKL (formerly WKBU) with emergency antenna facilities pursuant to Section 73.1680.¹

In support of the request, Entercom states that the station's licensed facilities were destroyed by Hurricane Katrina on August 29, 2005, and that the station has restored operations from the auxiliary antenna of nearby, commonly owned Station WLMG(FM). Entercom seeks modification of STA to increase the effective radiated power to 5 kilowatts.

Our review indicates that the proposed, modified emergency antenna operation would continue to comply with Section 73.1680 and our STA policies.

Accordingly, the request for modification of STA IS HEREBY GRANTED. Station WTKL may operate with the following facilities:

Geographic coordinates:	29° 55' 11" N, 90° 01' 29" W (NAD 1927)
Channel	287 (105.3 MHz)
Effective radiated power:	5 kilowatts (H&V)
Antenna height:	
above ground:	164 meters

¹ WTKL is licensed for operation on Channel 287C1 (105.3 MHz) with effective radiated power of 96 kilowatts (H&V) and antenna height above average terrain of 306 meters.

above mean sea level: 164 meters
Above average terrain: 164 meters

Entercom must notify the Commission when licensed operation is restored. Entercom must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See 47 CFR § 1.1310.*

This authority expires on **August 23, 2006**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.
