Hi Art,

As we discussed, you can dismiss BXLH-20131125BWO as moot for KXTA(FM) Gooding, ID. This Aux facility no longer fits within the protected contour of the newly licensed main facility (see BLH-20140306AKP). Instead, the licensee is hoping that it can receive a grant on BXPB-20140625APC so that it can construct an Aux to be used as a separate HD antenna. Any assistance the license app's dismissal can serve in getting a grant on the new CP would be most appreciated!

Thank you,

Kevin
