BPED-20140728AAA

Dear Applicant:

This letter refers to the above-captioned minor change application to modify the effective radiated power, class, and antenna height.

An engineering study of the application reveals that it is in violation of the spacing requirements of 47 C.F.R. § 73.207. Specifically, the application is short-spaced by 11 kilometers to the fifty-fourth adjacent channel license (BLH-20070706ACG) of KORL-FM, Waianae, HI. The required spacing pursuant to § 73.207 is 41 kilometers while the actual spacing is 30 kilometers. This short-spacing was not addressed in the application. This constitutes an acceptability defect.

In light of the above, application BPED-20140728AAA is unacceptable for filing pursuant to 47 C.F.R. 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,
