Re: WSSW (FM), Platteville, WI
State of Wisconsin – Educational Communications Board
Facility Identification Number: 91616
Special Temporary Authority (“STA”)
BSTA-20140910ABK

Dear Counsel:

This is in reference to the request filed September 10, 2014, on behalf of the State of Wisconsin – Educational Communications Board (“SW-ECB”). SW-ECB explains that structural issues require the licensed tower structure to be removed as soon as possible. SW-ECB plans to file a minor change construction permit application once plans are finalized. Until this can be accomplished, and the minor change application granted, SW-ECB requests Special Temporary Authority to operate from a short, temporary structure with an antenna height of 7 meters above ground level. This will enable WSSW to maintain service to most of its licensed 60 dBu service area.

Accordingly, the request for STA IS HEREBY GRANTED. Station WSSW may continue to operate with the following temporary facilities at WSSW’s licensed transmitter site:

Channel	206 (89.1 MHz)
Effective radiated power:	0.060 kilowatts (H&V)
Antenna height:	
above ground:	7 meters
above mean sea level:	436 meters
Above average terrain:	131 meters
Tower structure height above ground level:	7 meters

SW-ECB must notify the Commission when licensed operation is restored. SW-ECB must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on March 10, 2015.

Sincerely,

Dale Bickel,
Senior Engineer
