RECEIVED

Dear Ms. Dortch:

This letter filed on behalf of Radio License Holding CBC, LLC ("RLH-CBC"), licensee of Station KNEV(FM), Reno, Nevada, notifies the Commission that this Station is currently operating with its licensed main facility at reduced power, pursuant to Section 73.1560(d) of the Rules. The main transmitter has been unable to operate at full power for any length of time since March 14, 2014, however, remains stable when operating at approximately fifty percent 50% of licensed power. RLH-CBC's engineer intends to repair the transmitter, but must locate and await the arrival of parts. In the meantime, KNEV is operating with approximately 30 kiloWatts effective radiated power. Should the Station continue to operate with reduced power for thirty (30) days, a request for Special Temporary Authority will be filed.

Please direct any questions to undersigned counsel for Radio License Holding CBC, LLC.

Sincerely,

Mark N. Lipp M.N.L.
