> Re: WIJD (AM), Prichard, Alabama Facility Identification Number: 53144 Mobile Bay Corporation (MBC) Special Temporary Authorization (STA) BESTA- 20140905AAS

Dear Mr. Gutmann:

This is in reference to the request filed on September 5, 2014. MBC requests a fourth extension of the STA granted on November 6, 2012, for operation of Station WIJD with temporary facilities due to removal of the licensed tower (which is co-located with station WASG).¹ In support of the request, MBC states that a replacement tower will be installed after a new FAA approval has been obtained, followed by the filing of an application for a modified license.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WIJD is licensed for non-directional operation on 1270 kHz with 5 kW day and 0.103 kW night.

Accordingly, the request for STA extension IS HEREBY GRANTED. Station WIJD may continue to operate from its licensed site with a temporary tower and reduced power. It will be necessary to further reduce power or cease operation if complaints of interference are received. MBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that MBC will file an FCC Form 302 application to modify the existing license before the expiration date shown below to reflect any changes caused by installing the new replacement tower (along with an FCC Form 301 application filing as well, if any other parameter changes are needed that cannot be done via a 302 application alone).

This authority expires on April 2, 2015.

Sincerely, Joseph Szczesny, Engineer Audio Division Media Bureau

c: Robert L. Wilkins, President (MBC)
