Re: Actualidad 1040AM Licensee, LLC (Actualidad)
WLVJ(AM), Boynton Beach, FL
Facility Identification Number: 4341
Special Temporary Authority
BESTA-20140918ACX

Dear Mr. Liberman:

This is in reference to the request filed on September 18, 2014. Actualidad requests a fourth extension of the STA originally granted on April 3, 2013, to operate with reduced power or with parameters at variance from licensed tolerances while maintaining monitoring point field strengths within licensed limits pursuant to Section 73.1615 of the Commission's Rules due to equipment modifications.¹ In support of the request, Actualidad stated it filed an FCC Form 302 license application BMML-20140919AEC in order to verify the return to licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for continued extension of STA IS HEREBY GRANTED.

¹ WLVJ(AM) is licensed for DA operation on 1040 kHz with 25 kW day and 1.1 kW night.

Station WLWJ(AM) may operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. Operation during daytime hours with a non-directional antenna and reduced power not to exceed 6.25 kilowatts and operation during nighttime hours with a non-directional antenna and reduced power not to exceed 0.275 kilowatts is authorized. It will be necessary to further reduce power or cease operation if complaints of interference are received. Actualidad must notify the Commission when licensed operation is restored.² Actualidad must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. We anticipate that the pending license application will be granted before the expiration date shown below barring any unforeseen delays.

This authority expires on **April 14, 2015**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Joe Szczesny', with a large, stylized loop at the end.

Joe Szczesny, Engineer
