As we discussed yesterday, July 23, 2014, over the phone, attached please find the normal Mexican Coordination request letter and Exhibits as attached to the licensee amended application justifying, according to their review, that there is no interference as indicated by the Mexican objection letter. As you know, I do not have the authority to override the Mexican Authority decision, therefore, please forward all attachments to the Mexican Authorizes requesting reconsideration of their previous objection to this licensee proposal.

Thanks, Ron Graser
