Dear Applicant:

This refers to your attorney's letter dated November 3, 2014, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that the station requests a modification to its current STA (BDSTA-20140808ABI). You point out that since October 22, 2014; the station has been operating at 1000 Watts, or 51% of its authorized power because of repeated RF pallet failure. You state that reduced power operations will continue to be necessary while the applicant is trying to repair the equipment and restore full power operation.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until February 14, 2015 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
