Re: KXEN(AM), St. Louis, Missouri
Facility Identification Number: 54739
BDJ Radio Enterprises, LLC (BRE)
Special Temporary Authorization (STA)
BESTA - 20141017AAI

Dear Ms. Sadowsky:

This is in reference to the request filed on October 17, 2014. BRE requests an extension of the STA granted on May 23, 2014, to operate station KXEN(AM) with temporary facilities during nighttime hours due to sale of part of the existing transmitter site containing the licensed nighttime directional antenna facility.¹ In support of the request, BRE states that it has been operating from the nighttime STA site since July 17, 2014, due to the sale of that parcel of land, and requests an extension to allow time to locate a new transmitter site for the station and file an FCC Form 301 application (due to the proposed sale of the licensed daytime site parcels).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KXEN(AM) may continue to operate using the licensed site daytime facilities and at night with the following temporary facilities:

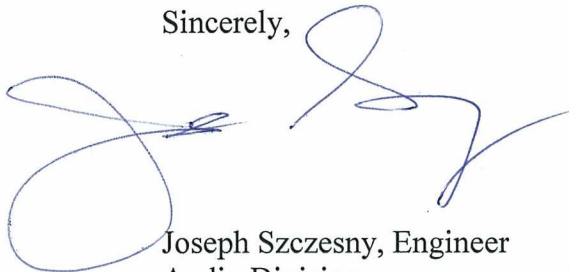

¹¹ KXEN(AM) is licensed for DA operation on 1010 kHz with 50 kW day and 0.5 kW night.

Geographic coordinates:	38° 38' 09" N, 90° 11' 45" W (NAD 1927)
Frequency:	1010 kHz
Operating hours:	Nighttime
Operating power:	0.125 kW nighttime
Antenna:	74.2 meter vertical wire supported on face of a self supporting tower located at the studios of KDNL(TV)
Radiator height:	90°
ASRN:	1003524

It will be necessary to further reduce power or cease operation if complaints of interference are received. BRE must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 20, 2015**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a more complex, scribbled shape on the right.
