**Re: KMBZ(AM), Kansas City, Missouri (Fac. Id. No. 6382)  
File Number: BP-20140729ACZ**

Dear Ms. Dortch:

This letter, served in triplicate, is written in response to the letter of December 5, 2014 from Son Nguyen, Supervisory Engineer, Audio Division of the Media Bureau, requesting a formal response or an amendment by Entercom License, LLC ("Entercom") to pending application file number BP-20140729ACZ (the "Application") for facilities changes for AM broadcast station KMBZ, Kansas City, MO (Fac. Id. No. 6382).

As noted in that letter, the Application proposes facilities which will reduce radiation contributing to the RSS calculations for Mexican station XENR (Nueva Rosita, COA) and Mexican notification XENVA2 (Ojinaga, CHH). However, the letter notes that the present and long established licensed nighttime operation of KMBZ has been objected to and that therefore the present RSS contributions by KMBZ to the two Mexican facilities cannot be used as controlling ceilings for a modified facility.

However, Entercom has been advised by the Commission's International Bureau ("IB") that the Mexican objection to the KMBZ 1982 change list notification is unfounded. The IB advises that Mexico was advised of this invalid objection by letter from the IB. This information was provided by the IB staff to the Audio Division staff by e-mail on December 16, 2014.

As a result, Entercom requests that the Commission grant the Application because there is precedent for this action. For example, the Commission granted construction permit BP-20080415AAS for KMVP, Phoenix, AZ (Fac. Id. No. 1326) under essentially identical circumstances as this Application.

If any further information is desired in connection with this matter, please feel free to contact the undersigned. Kindly date stamp the enclosed copy of this letter acknowledging its receipt by your office and return it to me in the enclosed self-addressed stamped envelope.

Sincerely,

Carrie Ward
