File No. BMPL-20141223ABP

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 37.9 kilometers from the licensed facility for KOND(FM) (BLH-20110819ABO) on Channel 221B in Clovis, CA. The required spacing pursuant to § 73.807 is 67 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application BMPL-20141223ABP is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. §§ 0.283 and 73.870(c).

Sincerely,

James D. Bradshaw
