Re: Entercom License, LLC (Entercom)
KNSS(AM), Wichita, Kansas
Facility Identification Number: 53152
Special Temporary Authority (STA)
BESTA-20141219ACB

Dear Ms. Ward:

This is in reference to the request filed on December 19, 2014. Entercom requests an extension of the STA granted on June 24, 2014, to operate station KNSS(AM) with parameters at variance from license values and/or reduced power while maintaining monitor points within license limits due to FM antenna equipment changes on one tower.¹ In support of the request, Entercom states that in the past six month STA period the required FCC Form 302 application was filed (BMML-20141014AWB) to update the operating parameters, and it remains pending before the Commission at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station

¹ KNSS(AM) is licensed for operation on 1330 kHz with a power of 5 kW ND day and DA night.

KNSS(AM) may continue to operate ND daytime with up to 1.25 kW from either of the two towers in the array. Additionally, KNSS(AM) may operate ND at night with a power not to exceed 1.25 kW from either tower, or may operate directionally using parameters determined by a Method of Moments proof of performance. It will be necessary to further reduce power or cease operation if complaints of interference are received. Entercom must notify the Commission when licensed operation is restored.² Entercom must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 13, 2015**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Szczesny', is written over the typed name.

Joseph Szczesny, Engineer
