> Re: Multicultural Radio Broadcasting Licensee, LLC (MRBL) KAHZ(AM), Pomona, CA Facility Identification Number: 61814 Special Temporary Authority BESTA-20141229AGY

Dear Mr. Lipp:

This is in reference to the request filed on December 29, 2014. MRBL requests an extension of the STA granted on July 1, 2014, to operate during nighttime hours with emergency antenna facilities pursuant to Section 73.1680 due to a transmission line failure.<sup>1</sup> In support of the request, MRBL states that additional time is needed to allow for the delivery and installation of a new replacement transmission line.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WKAZ(AM) may continue to operate during nighttime hours with an emergency ND antenna and reduced power not to exceed 1.25 kW. It will be necessary to further reduce power or cease operation if complaints of

<sup>&</sup>lt;sup>1</sup> KAHZ(AM) is licensed for operation on 1600 kHz with 5 kW (ND day and DA night).

interference are received. MRBL must notify the Commission when licensed operation is restored.<sup>2</sup> MRBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that MRBL will install the transmission line and then file an FCC Form 302 application before the expiration date shown below to update all operating parameters (or file a one page letter to the attention of supervisory engineer Son Nguyen confirming no changes to the current licensed parameters were required).

This authority expires on July 14, 2015.

Sincerely, Joseph Szczesny, Engineer Audio Division

Media Bureau

cc: Arthur S. Lui, President, MRBL
