Dear Mr Doak,

Thank you for your phone call today regarding the WQAI application. Please accept the following information as part of the application:

Exhibit 16 parameters box has a typographical error. The ERP as stated should be 63kw with no change in the Community of License coverage.

In Exhibit 24-A, the polarization is listed as vertical with an ERP of 63kw. EMF acknowledges that this proposed facility will operate with a horizontal ERP of .063kw. There will be no adverse effect on the environmental study results with this proposed level of operation in the horizontal plane.

Sincerely,
James L Travis
