**Request for Extension of
Experimental Authority**

Dear Counsel:

The staff has under consideration the August 4, 2014, request for extension of experimental authority¹ submitted on behalf of Leech Lake Band of Ojibwe (“LLBOO”), licensee of noncommercial educational FM Station KOJB(FM), Cass Lake, Minnesota,² to permit Station KOJB(FM) to continue to conduct testing of single sideband multiplex stereo transmission. The experimental authority is requested pursuant to Section 5.203 of the Commission’s Rules³ for a period of one year.

The request states that LLBOO is seeking further experimental authority to continue to operate Station KOJB(FM) with a technology developed by Omnia Audio known as single sideband suppressed carrier (“SSBSC”) modulation of the stereo subcarrier in the FM multiplex baseband signal for further testing. In support of the extension request, LLBOO submitted an interim report detailing the progress and results of the testing undertaken during the experimental program as required by the experimental authorization.

¹ File No. 20130603BKB.

² File No. BLED-20110920ABY.

³ 47 C.F.R. § 5.203 (“Section 5.203”).

The subject request for extension of experimental authority meets the requirements for experimental operations set forth in Section 5.203. Accordingly, the request is HEREBY GRANTED. This experimental authority expires on **January 27, 2016**. This authority is specifically conditioned on the lack of objectionable interference. A report detailing the methodology employed and the results obtained must be submitted within 90 days following the conclusion of the experimental operation. Any request for further extension of this experimental authority should be filed at least 30 days prior to the expiration date of the authority. Additionally, an extension request must include an interim report that details the progress of the experimental operation as of the filing date of the request.

Sincerely,

Susan N. Crawford
