Re: WGD(AM), Lares, Puerto Rico  
Facility Identification Number: 36564  
Lares Broadcasting Corporation (LBC)  
Special Temporary Authority (STA)  
BESTA-20150112AAJ

Dear Mr. Cinnamon:

This is in reference to the request filed on January 12, 2015. LBC requests an extension of the STA to operate with the STA facilities originally granted on November 22, 1991 (using the 1 kW ND pattern specified in BP-19900326AD). In support of the request, LBC states that BP-19900326AD remains pending before the Commission awaiting final action.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly the request for extension of STA IS HEREBY GRANTED. Station WGD(AM) may continue to operate with the parameters specified in BP-19900326AD. This authority is granted on the condition that station WGD(AM) must immediately return to licensed operating parameters (as specified in BL-19860606AG) if the IFRB orders HIBS to change from 670 kHz to 1200 kHz, which will result in the dismissal of the pending application BP-19900326AD and cancellation of this STA.

This authority expires on **August 4, 2015.**

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer  
Audio Division, Media Bureau
