Re: Delta Radio Network, LLC (Delta)
WNLA(AM), Indianola, Mississippi
Facility Identification Number: 59971
File Number: BP-20140507AEB

Dear Mr. Fuss:

This is in reference to the above captioned application to change the frequency and increase power for station WNLA(AM), and the staff's email of July 16, 2014, informing you of the "red light" status of the application.

The Commission's CDBS processing system shows a "red light" against this application. This generally means some sort of fee issue that must be resolved before any further authorizations can be granted. Please contact Roland Helvajian in the Fees section of the FCC for assistance with this matter: roland.helvajian@fcc.gov, (202)-418-0444.

Further action on this application will be held thirty (30) days from the date of this letter to give Delta an opportunity to resolve the fees matters. Failure to have the "red light" status removed within that time period will result in the dismissal of the application pursuant to Sections 1.910(b)(3) and 73.3568(a)(1) of the Commission's Rules.

Sincerely,

Son Nguyen
