Re: Clear Channel Broadcasting Licenses, Inc. (CCBL)  
WIOD(AM), Miami, Florida  
Facility Identification Number: 14242  
Special Temporary Authority (STA)  
BESTA- 20150121AAU

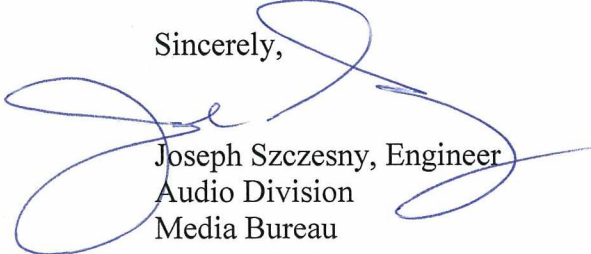

Dear Ms. Sarver:

This is in reference to the request filed on January 21, 2015. CCBL requests further extension of the STA originally granted on June 16, 1981, for operation with increased power of 10 kW to overcome Cuban interference.<sup>1</sup> In support of the request, CCBL states that continued STA operation is needed to overcome the Cuban interference.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WIOD may continue to operate with increased power of 10 kW using the directional antenna parameters specified in BZ-20040227ACD.<sup>2</sup> It will be necessary to further reduce power or cease operation if complaints of interference are received. CCBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commissions exposure guidelines. See 47 CFR § 1.1310. Station WIOD must resume licensed operating parameters if the Cuban interference ceases.

This authority expires on August 18, 2015.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau

cc: Robert H. Walls, GC, CCBL

<sup>1</sup> WIOD is licensed for DA operation on 610 kHz with 5 kW (day and night) per BZ-19901121AE.

<sup>2</sup> BZ-20040227ACD was granted on May 24, 2004, along with a modified STA letter of the same date to specify operation with revised DA parameters.
