Washington, DC 20554

ATTN: Mass Media Bureau
Audio Services Division

Dear Ms. Dortch:

This is the statement which is required as a term of license for the AM Synchronous Transmitter KKOBB (AM-1) located in Santa Fe, New Mexico. The facility broadcasts the signal of KKOBB (AM), Albuquerque, New Mexico, under the terms of a license bearing file number BZ - 940201AG. The licensee is Citadel Broadcasting Company. The facility continues to operate without interruption within the terms and conditions of its license.

There have been no complaints of interference or reception problems traceable to the operation of the Synchronous Booster.

The facility continues to serve members of the public living in the vicinity of Santa Fe, NM who would otherwise be denied nighttime service from station KKOBB (AM) due to the depth of the KKOBB (AM)'s directional antenna null towards Santa Fe, NM.

Sincerely,

William F. Harris
Chief Operator/Chief Engineer
