Re: KNEV (FM), Reno, NV  
Radio License Holding CBC, LLC  
Facility Identification Number: 11244  
Special Temporary Authority (STA)  
BESTA-20150413ABG

Dear Counsel:

This is in reference to the request filed April 13, 2015, on behalf of Radio License Holding CBC, LLC ("RLH-CBC"). RLH-CBC explains that KNEV's transmitter is continuing to operate at approximately 50% of authorized power. RLH-CBC has obtained a replacement transmitter and that unit is presently being evaluated. RLH-CBC seeks a second extension of the April 15, 2014 STA to continue operating at reduced power pending the completion of repairs.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for STA extension IS HEREBY GRANTED. Station KNEV may continue to operate with reduced power. RLH-CBC must notify the Commission when licensed operation is restored. RLH-CBC must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **October 13, 2015**.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dale Bickel", written in a cursive style.

Dale Bickel
