Georgia Public Telecommunications Commission  
260 Fourteenth Street NW  
Atlanta, GA 30318

Re: WSVH (FM), Savannah, GA  
Georgia Public Telecommunications Commission  
Facility Identification Number: 23926  
Special Temporary Authority (STA)  
BESTA-20150305AAH

Dear Licensee:

This is in reference to the request filed March 5, 2015, on behalf of Georgia Public Telecommunications Commission ("GPTC"). GPTC previously explained that a lightning strike had knocked WSVH off the air. The station resumed operations using emergency facilities pursuant to Section 73.1680 of the Commission's rules, and has been operating under Special Temporary Authority granted October 30, 2014. GPTC here requests an extension of that authority to continue these operations until repairs to the licensed facility can be effected.

The request for STA extension IS HEREBY GRANTED. Station WSVH may continue operating with the following emergency facilities:

Channel	216A (91.1 MHz)
Coordinates:	32° 03' 26" NL, 81° 09' 47" WL
Effective radiated power:	0.029 kilowatts (H&V)
Antenna height:	
above ground:	146.3 meters
above mean sea level:	149.3 meters
Above average terrain:	145.6 meters
Antenna Structure Registration No.:	1018332

GPTC must notify the Commission when licensed operation is restored. GPTC must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 24, 2015**.

Sincerely,

A handwritten signature in black ink that reads "Dale Bickel". The signature is written in a cursive style with a large, looping initial "D".

Dale Bickel  
Senior Engineer
