Re: **Notification of Resumption of Licensed Operations**
Radio License Holding CBC, LLC
Station KESP(AM), Modesto, California
Facility Identifier Number 11233

Dear Ms. Dortch:

Radio License Holding CBC, LLC ("RLH-CBC"), notified the FCC that the cables to Station KESP(AM) towers were damaged which adversely affected its antenna system. As a result, the Station was operating with its authorized nighttime facilities full time and, therefore, at variance during daytime hours only. RLH-CBC is pleased to report that the Station is now able to switch between daytime and nighttime antenna modes and will not have to request Special Temporary Authority. The Station is operating according to its license.

If there are any questions about this Notification, please contact undersigned counsel for Radio License Holding CBC, LLC.

Sincerely,

Mark N. Lipp
