KTUM (FM), Tatum, NM
MTD, Inc.
Facility Identification Number: 88798
Special Temporary Authority
BESTA-20150610AAT

Dear Licensee:

This is in reference to the requests filed June 10, 2015, by MTD, Inc. ("MTD") for KWMW and KTUM. On November 25, 2013, ice caused the collapse of the tower supporting KWMW and KTUM. MTD requests a third extension of the Special Temporary Authority (STA) granted December 18, 2013 to continue operations from a 61 meter (199 foot) temporary tower sited adjacent to the licensed tower site, with operation continuing at reduced power, pending reconstruction of the damaged structure.¹ MTD plans to rebuild the tower this fall.

The requests for extension of STA ARE HEREBY GRANTED. Stations KWMW and KTUM may continue to operate with the following temporary facilities:

Geographic coordinates:	32° 52' 50" N, 103° 41' 01" W (NAD 1927)
Channel	286 (105.1 MHz) KWMW 296 (107.1 MHz) KTUM
Effective radiated power:	20 kilowatts (H&V)
Antenna height:	
above ground:	56.4 meters
above mean sea level:	1339 meters
above average terrain:	77 meters
Tower height:	61 meters (no obstruction lighting required)

¹ Operation pursuant to the December 18, 2013 STA commenced April 29, 2014.

MTD must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 12, 2015**.

Sincerely,

A handwritten signature in black ink that reads "Dale Bickel". The signature is written in a cursive style with a large initial "D" and a long, sweeping tail.

Dale Bickel
