Dear Mr. Dale Bickel,

In compliance with FCC Media Bureau requirement, we hereby respectfully submit this notification that our LPFM station, with call sign KPTL LP, 96.9 FM of Temecula, with Facility ID Number: 19709, operates mostly unattended at various parts of the day, but as often as possible will be attended.

In the event of any problems with the transmission or equipment failure to operate within FCC specifications the transmitter system is programmed to shut-off automatically and instantly (less than 3 hours), and is programmed to notify our technical personnel automatically via email.

The administrator and/or operator can be reached 24 hours a day via cell phone #951-760-3315, or office # 951-303-3906 and email: kptllp@gmail.com, should FCC need to contact us.

The station equipment, as well as the administrative office, is located at 33035 Hill Street, Temecula, CA, 92592. The station can be reached within minutes in the event of receipt of email notification of technical personnel, as programmed.

Please also note, we have set-up redundant on-line monitoring by the station engineer and operations manager, at their respective residences, who also can be reached within minutes as needed.

Thank you very much for your attention and guidance.

Please advise us if there is further information that you need.

Very respectfully,

Ira Amargo
Administrator
