In re: WSDP(FM), Plymouth, MI  
Facility ID No. 52840  
Plymouth Canton Community Schools  
BPED-20150610ABL

Dear Applicant:

This letter refers to the above-captioned minor change application to modify the directional antenna pattern and effective radiated power.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 with respect to the co-channel Class A construction permit (BPED-20150512AAM) for WSMF(FM)<sup>1</sup>, Monroe, MI. Specifically, the proposed protected contour (60 dBu) would receive prohibited overlap from the interfering contour (40 dBu) of WSMF by as much as 4.3 kilometers between the azimuths from 80°T - 165°T. Furthermore, the proposed interfering contour (40 dBu) would cause prohibited overlap to the protected contour (60 dBu) of WSMF by as much as 6 kilometers between the azimuths from 352°T - 37°T. This constitutes an acceptance defect.

In light of the above, Application BPED-20150610ABL is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division  
Media Bureau
