Re: Yavapai Broadcasting Corporation (YBC)
KVNA (AM), Flagstaff, Arizona
Facility Identification Number: 68567
Special Temporary Authority (STA)
BESTA- 20150701ACC

Dear W. Grant Hafley:

This is in reference to the request filed on July 1, 2015. YBC requests further extension of the STA originally granted on March 17, 2006, to operate Station KVNA with emergency antenna facilities pursuant to Section 73.1680 (due to loss of the licensed site).¹ In support of the request, YBC states that in the past six month period, the construction permit (BP-20150106AAU) to propose a new site was filed and granted, and it now plans to file an acceptable FCC Form 302 license application after all equipment has arrived and been installed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KVNA

¹ KVNA is licensed for ND operation on 600 kHz with 1 kW day and 0.048 kW night, and the construction permit (BP-20150106AAU) authorizes use of a new ND site facility using 1 kW day and 0.07 kW night.

may continue to operate with the following facilities:

Geographic coordinates: 35° 13' 43" N, 111° 34' 05" W (NAD 1927)

Frequency: 600kHz

Hours of operation: Unlimited

Operating power: Not to exceed 1 kW daytime, 0.048 kW nighttime

Antenna: Long wire

It will be necessary to reduce power or cease operation if complaints of interference are received. YBC must notify the Commission when licensed operation is restored after an FCC Form 302 application has been filed and granted.² YBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commissions exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **January 20, 2016.**

Sincerely,

A handwritten signature in blue ink, appearing to read 'Joseph Szczesny', is written over the typed name.

Joseph Szczesny, Engineer
