Re: KLCX (FM), Pueblo, CO
Educational Media Foundation
Facility Identification Number: 25526
Special Temporary Authority (STA)
BSTA-20150720ABF

Dear Licensee:

This is in reference to the request filed July 20, 2015, on behalf of Educational Media Foundation ("EMF"). EMF explains that the station's antenna system failed July 16, and that KLCX is operating from an emergency antenna located at a lower level on the licensed antenna structure, at reduced power. EMF requests an STA to continue such operation until repairs can be completed.

Section 73.1680 of the Commission's rules provides for operation with emergency antenna facilities following damage to authorized antenna systems, provided that an informal request for continued use of an emergency antenna is filed with the Commission within 24 hours. In particular, Section 73.1680(b)(2) provides that FM and TV stations may erect any suitable radiator, or use operable sections of the authorized antenna(s) as an emergency antenna.

Accordingly, the request for STA IS HEREBY GRANTED. Station KLCX may continue to operate from its licensed site with the following facilities:

Channel	295 (106.9 MHz)
Effective radiated power:	0.716 kilowatts (H&V)
Antenna height:	
above ground:	34 meters
above mean sea level:	2579 meters
above average terrain:	55 meters

EMF must notify the Commission when licensed operation is restored. EMF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 17, 2016**.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dale Bickel". The signature is written in a cursive, slightly slanted style.

Dale Bickel
Senior Engineer
Audio Division
Media Bureau
