I have lived in Ukiah, California for 28 years and have been a member/supporter of our little public radio station KZYX here in Mendocino for most of that time. I have been and continue to be very pleased with the programing and the way the station is currently being run.

There is now an outspoken faction on the board that has complaints all out of proportion to any serious problems that exist. I am asking you to support the current administration of the station as do 98% of us listeners in the county.

Thank you

Howell Hawkes
