Dear Mr. Doyle,

I am writing to express my support for our longstanding public radio station, KZXYX/Z. In Mendocino County we do not have a wide range of options for accurate, in-depth local news. KZXYX has fulfilled that function very successfully for several years. Under the current leadership, the station's finances have been strengthening. While there is still much work to be done, we have a very strong station with diverse programming and wide listener support. The residents of our sparsely-populated and economically challenged county need real news about what is happening in our cities, counties and region. The national and international syndicated shows carried by KZXYX/Z bring a level of intellectual and global perspective that we would otherwise have little access to, especially considering that large areas of our region lack affordable broadband internet service.

Unfortunately, we have a small minority of destructive voices in our community who have plenty of time to devote to stirring up conspiracies and controversies - frequently using ad hominem attacks. We do not need to waste the hard raised funds or staff time at KZXYX on frivolous claims of mismanagement. We need to get on with the business of growing our best local radio station. Please renew KZXYX's license as soon as possible!

Thank you.
Sincerely,

Andrew Stein
