In Re: BMPL-20141231AIM

Dear Technical Processing Group,

This is to notify you that KPIK-LP, in reference to the above noted construction permit, conducted equipment testing and signal tests Friday April 10, 2014 through Tuesday April 14, 2015. Brief intermittent testing will continue after troubleshooting a high SWR condition and other issues noted during initial testing.

Best Regards,

John G. Zolkoske
President,
Santiam Community Radio
