File No. BMPL-20151008ACL

Dear Applicant:

The staff has under consideration the above-captioned application for a modification to a construction permit.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 95.4 kilometers from the licensed facility for KYXY (BLH-20070703AAF) on Channel 243B in San Diego, CA. The required spacing pursuant to § 73.807 is 97 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application BMPL-20151008ACL is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. §§ 0.283 and 73.870(c).

Sincerely,
