Return of CP for Cancellation

Dear Madame Secretary:

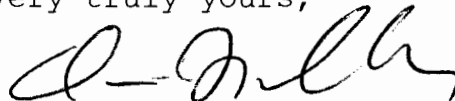

On behalf of our client La Promesa Foundation, licensee of AM Broadcast Station KLPF, Midland, Texas this is to return for cancellation the construction permit authorizing station KLPF to move from 1150 kHz to 1180 kHz and increase its daytime power from its existing transmitter site. It is to be noted that because of housing construction on adjacent real estate parcels the expanded KLPF facility cannot be constructed at the existing 1150 kHz site.

Station KLPF is operating with its licensed facility on 1150 kHz; the return of the attached construction permit does not affect its current licensed operation.

In the coming days, La Promesa Foundation will be filing a new construction permit application proposing relocation to 1180 kHz from a new location near Midland, Texas.

Should additional information be desired in connection with the above matter, kindly communicate with this office.

Very truly yours,

Dennis J. Kelly

Call Sign: KLPP

Permit File Number: BP-20130520ADV

Grant Date: **SEP 18 2013**
This permit expires 3:00 a.m.
local time, 36 months after the
grant date specified above.

Permit to change frequency and increase power using existing tower.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para. 77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998). Pursuant to these rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Hours of Operation: Daytime with Secondary nighttime

Average hours of sunrise and sunset:
Local Standard Time (Non-Advanced)

Jan.	7:45 AM	6:00 PM	Jul.	5:45 AM	8:00 PM

Non-Directional Antenna: Day

Radiator Height: 67.2 meters; 95.2 deg

Theoretical Efficiency: 309.2 mV/m/kw at 1km

Non-Directional Antenna: Night

Radiator Height: 67.2 meters; 95.2 deg

Theoretical Efficiency: 309.2 mV/m/kw at 1km

Special operating conditions or restrictions:

- 1 The licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
- 2 Permittee shall install a type accepted transmitter, or submit application (FCC Form 301) along with data prescribed in Section 73.1660(b) should non-type accepted transmitter be proposed.
- 3 A license application (FCC Form 302) to cover this construction permit must be filed with the Commission pursuant to Section 73.3536 of the Rules before the permit expires.
- 4 Licensee shall be responsible for satisfying all reasonable complaints of blanketing interference within the 1 V/m contour as required by Section 73.88 of the Commission's rules.
- 5 Ground system consists of 120 equally spaced, buried, copper radials, each varying 75 to 107 meters in length, plus 120 interspersed radials 30.5 meters in length, about the base of the tower.
