RE: WKSJ-FM (ID# 27422)—Pulaski, TN—BPH 20150702AAL

Good Morning:

This is reference to the pending application for a change of transmitter site and community of license for WKSJ-FM in file BPH-20150702AAL filed originally by Lakewood Communications LLC and now Radio 7 Media, LLC as a result of an assignment of license in file number BAL 20150616ACR.

On August 25, 2015, the staff sent a letter (*see attached*) requesting additional information for the pending application. There were several questions about the proposed site and spacing for the new location to Pulaski, TN, which has no FM station at the present. The consulting engineer, Laura Mizrahi, has been in ill health the last few weeks and has been unable to complete the amendment with the 45 days originally requested. She is back at work now and respectfully requests that she be given an addition 30 days in which to complete the work on the amendment and get it on file. It is not anticipated that it will take this long, but the period is requested out of an abundance of caution.

Therefore, please extend the responsive amendment period 30ays from the receipt of this letter in order to allow for the new licensee and consultants to resolve the issues raised in the letter from the staff dated August 25, 2015.

Also, please show the undersigned as the Counsel of Record for WKSJ-FM for this application. This will be reflected on the amendment. In the meantime should you have any questions

concerning this matter, please contact the undersigned for clarification. The initial consulting engineer remains the same.

Kindest regards,

Larry Perry
Communications Counsel
for Radio 7 Media, LLC
