Re: KXO (AM), EL Centro, California
Facility Identification Number: 35969
KXO, Inc.
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed May 3, 2006, on behalf of KXO, Inc. ("KI"). KI requests extension of the special temporary authority ("STA") granted on November 23, 2004, to operate Station KXO with emergency antenna facilities pursuant to Section 73.1680.¹

In support of the request, KI states that, since the KXO tower fell down on October 16, 2004, it has located a new site for the station, has obtained FAA approval for the new tower and is in the process filing an application with the Commission.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Application BP-20060922ADJ is pending before the Commission; thus, the licensee has made substantial progress toward restoring licensed operation and extension of STA is warranted.

¹ KXO is licensed for operation on 1230 kHz with 1 kilowatt daytime and 1 kilowatt nighttime, employing a nondirectional antenna (ND-1-U). Application BP-20060922ADJ proposes relocation of the transmitter and an increase in tower height.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KXO may operate with emergency antenna facilities as described above. It will be necessary to further reduce power or cease operation if complaints of interference are received. KI must notify the Commission when licensed operation is restored.² KI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **September 19, 2007**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller", written in a cursive style.
