In re: INTERFERENCE COMPLAINT  
W275BD, Greenfield, IN  
BLFT-20151120AGX  
Facility ID # 143744

Dear Licensee:

This refers to interference complaints filed by Reising Radio Partners, Inc. filed December 4, 2015 and all related pleadings. All complaints must be resolved. Listener complaints can be filed at any time. The complaints allege that W275BD is interfering with the reception of WXCH(FM), Columbus, Indiana.

Pursuant to 47 C.F.R. § 74.1203, W275BD is required to eliminate any actual interference it causes. Therefore, it is necessary for W275BD to submit a detailed report on the attached complaint even if the complainant might have been addressed in a previous proceeding. For the complaint, the report must include: (1) the name and address of the complainant; (2) specific devices receiving the interference (i.e. type of device, manufacturer's name, model number, and serial number); and (3) any assistance provided by W275BD for each device allegedly receiving the interference and whether such interference persists. Each of the complaints must be addressed individually.

The Commission's Rules regarding FM translators restrict FM translator stations to operate strictly on a secondary basis and limit their service. Section 74.1203(a)(3) states that an FM translator station will not be permitted to continue to operate if it causes any actual radio signal interference to the direct reception by the public of the off-the-air signals of any authorized broadcast station.<sup>1</sup> Actual interference is based on listener complaints indicating that the signal they regularly receive is being impaired by the signal radiated by the FM translator station. Section 74.1203(b) states that if the

---

<sup>1</sup> An FM translator station creating actual radio signal interference to any authorized broadcast station is obligated to eliminate the interference, regardless of the location where the impaired signal reception occurs.

interference cannot be properly eliminated by the application of suitable techniques, the operation of the offending FM translator station shall be suspended and shall not be resumed until the interference has been eliminated.

Within thirty days of this letter, W275BD must take appropriate actions required by the provisions of 47 C.F.R. § 74.1203 to resolve all complaints of interference to fulfill its obligations. Further action on this complaint will be withheld for a period of thirty days from the date of this letter to provide W275BD an opportunity to respond. Failure to correct all complaints within this time may require W275BD to suspend operation pursuant to 47 C.F.R. §§ 74.1203(e) and 74.1232(h).

**Your message to MOJO 102.9! :**

What happened to your signal? I drive to work from the Edinburgh area to the North side of Indy. I enjoy listening to MOJO on my way in. I used to be able to pick up the station most of the way there. I have noticed recently I lose the station just south of Greenwood on I-65. There is a Spanish station that comes through on 102.9 when I get to Greenwood and North of that. That is NO BUENO! I need my MOJO back.

Mike,

**Full Name :**

Antonio Coria

**Address :**

7301 N OLD US HIGHWAY 421 LOT 27, SAINT PAUL, Indiana 47272

I listen on my morning and evening commutes from Saint Paul, IN to Indianapolis, IN. Up and down Interstate 74 (US HWY 421). I do believe as I head WEST(NORTH) from Saint Paul, somewhere in Shelby County is where the Spanish begins to interfere with your transmission.

Regards,

**Antonio B. Coria**

Hi Antonio,

I have been hearing this a lot lately and it is beyond our control right now. But, I would like to forward your comment to the Federal Communications Commission and **that will require your name and address and where you used to listen and now cannot.** Could you please reply to mking@qmix.com?

Thank you

**Your message to MOJO 102.9! :**

Hey Guys, I used to listen to MOJO in my office at 2701 S Emerson Avenue in Indianapolis and now I can't pick up the station. Now there is a station that is playing Mexican music that I can't understand! What's with that? Is there any possibility of getting my MOJO back? Thanks!

Good morning! Could you please tell me if you have changed your radio station? I live and work in Greenwood and used to listen to Mojo all the time. I would listen at home and in the car on 31 to work, now I can't hear it anymore. Is something wrong with the station or do you think it's my radio? Please help. Thanks!

**Your message to MOJO 102.9! :**

I used to listen MOJO 102.9 at home in Greensburg all the time, then continue listening in my car during my morning commute -- all the way to my office in downtown Indianapolis (near the War Memorial). but the last few days i've noticed i now you lose your station on I-74 near the Fairland exit (by casino)! What sounds like a Spanish language station comes in overtop of it. What is going on? Hopefully this is only temporary. Help! I miss my MOJO!

I used to be able to get your signal in my house (1245 Berrywood Dr, Greenwood) but now it is very fuzzy. I used to be able to drive as far northwest as US 31/Stop 11 and receive your signal clearly (that is about as far as I typically go that I have noticed where I lose the signal (in the YMCA parking lot - as soon as I pull off of Shelby St) Now when I am in the car I am only picking up a spanish station no matter where I am. (I don't typically drive further south of my house so I don't know how far I have to go to pick it up again).

I am writing to inform you that a radio station in Indianapolis is bleeding over to your frequency. I live east of Shelbyville and commute to Indy daily. Before this started happening I could listen to your station with no problems. I hope you can stop this other station from over powering your signal.
