In re: Low Power Television Application of:
Riverton-Fremont TV Club, Inc.
Channel 44 , Riverton, ETC, WY.
BPTT-20050815ABH
Facility Id No.: 56613

Dear Applicant:

On April 11, 2006, the licensee as addressed above was sent a letter outlining the following issue concerning the analysis of the above-referenced construction permit.

Our preliminary engineering review reveals that the proposed facility protected contour does not overlap with the protected contour of the licensed facility file number BLTTV-4909. The contours as referenced above must overlap in order for the proposed modification to be considered as a Minor Change.

You were given the opportunity to file a minor amendment to resolve the specified protected contour problem within (30) days from the date of that letter. If not so amended, your application will be considered incomplete and subsequently dismissed.

The amendments filed on April 19, and April 29, 2006, did not resolve the protected contours issue. Our current engineering analysis considering both amendments shows that the contours still do not overlap; therefore, the above-referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
