**Subject:** From Don Davis in Albuquerque about K234BH and K291BC

Re:  
K234BH (now K235CO) FIN 156867  
K291BC FIN 156827

Hello Ms. Williams, Don Davis in Albuquerque here, and I am helping Maria Candelaria relocate her New Mexico translators to fruitful use at more practical (lower) locations.

When Maria asked for my help, I realized that she had overlooked the need to file notices of the resumption of operation for these two translator stations. Those notices were subsequently filed on October 16, 2015, and copies of each application are attached to this message.

Since the resumption notices were filed, Maria filed for a minor change relocation of K234BH, the CP was granted, and presently K234BH has received its operating license as K235CO.

Maria is preparing to file a minor change application for K291BC to operate as a fill-in translator for AM station KCHS at Truth or Consequences, New Mexico. In the process of preparing the application for her, I saw that K291BC is listed as DK291BC. This will be a conventional minor change filing as the translator is already nearby KCHS-AM.

The circumstances of K291BC are substantially the same in terms of time and situation as K234BH (now K235CO). Will you please see if you can "reset" K291BC in the same manner as was done for K234BH? The minor change application for K291BC to become a fill-in translator for KCHS-AM is nearly finished, and I would like to know that Maria's application will be acceptable for filing.

Thank you so much for your help on this, Ms. Williams! Maria and I both so appreciate your help.

All my best, Don Davis
