In re: W270CP, Atlanta, GA  
BMPFT-20150427AAD  
Facility ID No. 153804

Dear Applicant:

This refers to the above-captioned minor change application for W270CP.

An engineering study reveals the application is in violation of the interference protection requirements of 47 C.F.R. Section 74.1204. Specifically, the proposed 54 dbu interfering contour overlaps the 60 dBu protected contour of the facilities of Low Power FM construction permit BNPL-20131114ALV, Atlanta, GA. The application does not recognize this defect. Accordingly, we dismiss the application as unacceptable for filing.

In light of the above, application BMPFT-20150427AAD is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
