Re: Genesis Communications of Tampa Bay, Inc.
(GCTB)
WHBO(AM), Pinellas Park, FL
Facility Identification Number: 41383
Special Temporary Authorization (STA)
BESTA- 20160317AAU

Dear Mr. Maduri:

This is in reference to the request filed on March 17, 2016. GCTB requests a further extension of the STA originally granted on August 28, 2006, to operate with temporary facilities due to the collapse of one tower.¹ In support of the request, GCTB stated that additional time is needed pending grant of BP-20150820ABA.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and station WHBO(AM) may continue to operate with the following facilities or per Section 73.1615:

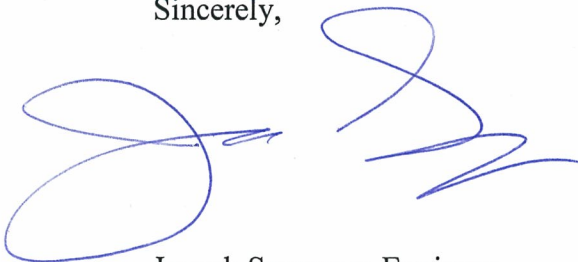

¹ WHBO(AM) is licensed for operation on 1040 kHz with 3.6 kW (ND) day and 0.42 kW (DA) night, and BP-20150820ABA authorizes a new day and night antenna system at the WWBA site.

Geographic coordinates	27° 54' 30" N, 82° 46' 51" W (NAD 1927)
Frequency	1040 KHz
Hours of operation	Unlimited
Operating power	3.5 kW day, 0.015 kW night
Antenna type	WWBA(AM)'s existing tower
Radiator height	95.1° (76.2 meters)
Overall height	77 meters
ASRN	1040054
Antenna efficiency	309.17 mV/m/km/kW

It will be necessary to further reduce power or cease operation if complaints of interference are received. WHBO(AM) must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that GCTB will file an FCC Form 302 application to cover BP-20150820ABA before the expiration date shown below.

This authority expires on **October 4, 2016**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of smaller, connected loops and a final horizontal stroke.

Joseph Szczesny, Engineer
