Re: Genesis Communications of Tampa Bay, Inc.
(GCTB)
WMGG(AM), Dunedin, Florida
Facility Identification Number: 67135
Special Temporary Authority (STA)
BESTA- 20160330AQA

Dear Mr. Maduri:

This is in reference to the request filed on March 30, 2016. GCTB requests a second extension of the STA granted on February 20, 2015, to operate station WMGG(AM) using one of the existing WTMP(AM) towers while completing work on BP-20120808ABK.¹ In support of the request, Genesis states that it plans to complete all work before the permit expires on June 19, 2016.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and station WMGG(AM) may continue to operate with the following facilities:

Geographic coordinates	28° 00' 42" N, 82° 29' 53" W (NAD 1927)
Frequency	1470 KHz
Hours of operation	Unlimited
Operating power	0.75 kW (day), 0.4 kW (night)

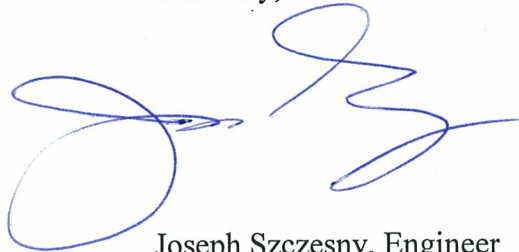

¹ WMGG(AM) is licensed for ND operation on 1470 kHz with 5 kW day and 0.5 kW night, and BP-20120808ABK authorizes a new facility using the three WTMP(AM) towers.

Antenna type	Existing WTMP(AM) tower #3(C)
ASRN	1030544
Antenna efficiency	351.2 mV/m

It will be necessary to further reduce power or cease operation if complaints of interference are received. GCTB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. GCTB will need to file a request to extend this STA using parameters at variance per the submitted FCC Form 302 application proofs (or to verify continued use of the parameters above) if a PTA has not been granted by the expiration date shown below.

This authority expires on **June 19, 2016**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
